Definitions of all codes used in these tables be provided. A number of the requested fields utilize some sort of abbreviation or code to record the information. Our FOIA request includes a request for a current copy of any code files or other records which translate each code into its corresponding meaning.

Linked tables, layout and format of copies provided. The above fields of information come from five separate database tables which are interlinked. We understand that multiple records in one table may be associated with only single record -- such as a particular detention facility -- in another table. We ask that the copy of the requested information retain this one-to-many linked table structure, allowing us to associate the information about the detention facility with the records relating to its contracts, inspections, renovations, and capabilities. That is, we ask that a separate file be prepared for each of these five tables and that each file contain the necessary linkage information allowing us to tie them together. We also ask that all information be provided in machine-readable electronic form, and that we be consulted in advance concerning the specific formats and file structures to be used.

Supplemental FOIA request for records used in making copies. We further specifically ask under the Freedom of Information Act to be provided with copies of all records indicating the method used -- including but not limited to scripts, commands, batch files, programs and queries -- to produce the copies of the information requested in this letter. We further request any outputs and logs prepared during the process of running these scripts/commands/programs and queries, or prepared to check that the copies are complete and accurate in all particulars.

We request that we be classified as an educational requestor and as a representative of the news media under the provisions of the Freedom of Information Act. The Transactional Records Access Clearinghouse (TRAC) is a research data center at Syracuse University where it is a joint center of the Martin J. Whitman School of Management and the S. I. Newhouse School of Public Communications. Under the direction of its co-directors, Professors Long and Burnham, TRAC carries out an active program of scholarly research. Further, as its name implies, TRAC as part of its educational and service

mission also serves as a clearinghouse and regularly responds to inquiries from the press, scholars, public interest groups, and other members of the public on where to find government information and the specific types of information available. One of our specialties is computerized federal databases maintained by agencies to record day-by-day activities required for managing the agency and reporting on its performance to various oversight bodies. TRAC actively seeks to promote public understanding of both the operation of the federal government's immigration enforcement programs as well as policies promoting transparency and open government practices. We do this through the gathering and dissemination of information on agency day-to-day activities. At TRAC, we actively gather information of interest to the public, transform this information utilizing our editorial and research expertise into various works -- including computerized knowledge bases and reports -- and make these works available to the public. For example, recent TRAC reports on immigration issues can be viewed at: <http://trac.syr.edu/immigration/reports/> and TRAC's immigration data access tools and applications can be found at: <http://trac.syr.edu/immigration/tools/>.

We also request a full waiver of fees. Disclosure of the requested information is in the public interest. ICE has acknowledged that the nature and operation of detention facilities used to house detained aliens is of critical importance to the proper operation of the agency and to fair and effective immigration enforcement activity of the Department of Homeland Security. A number of critical congressional and inspector general reports have been issued about the nature and operation of detention facilities currently being used. Thus, access to this basic information is fundamental to the public's ability to become informed about these vital government activities. The requested records will be used as part of our educational and public service activities to help individuals and organizations find the information they need concerning agency policies and practices. It will also be used to inform TRAC's own research on these topics. The results from our research should help address these critical gaps in knowledge and thereby contribute significantly to public understanding of the operations and activities of the government. Research results, as has been the case for our previous studies, will be made publicly available and widely distributed through their publication on our web site (<http://trac.syr.edu/immigration>). We have previously provided detailed information to support earlier classification and fee waiver requests, and we incorporate by reference in this request's justification all of the details contained in the August 1, 2006 letter sent on our behalf by our attorneys at Covington & Burling, LLP. Please let us know if you would like us to furnish an additional copy of this letter for your files.

Finally, we call your attention to the strict time limits set for furnishing requested records under 5 U.S.C. 552. We would very much appreciate your prompt action and response on this request.

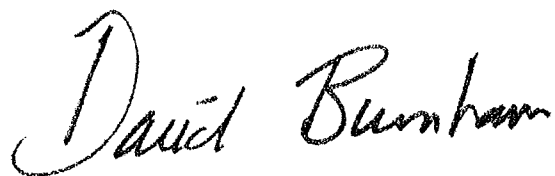

Should you have any questions, or if we can be of any assistance, please feel free to contact us. You can reach Long at (315) 443-3563 or by email at suelong@syr.edu. Thank you very much.

Definitions of all codes used in these tables.

That a separated file be prepared for each of the five tables and that each file contains the linked information.

You specifically ask for copies of all records indicating the method used. Including but not limited to scripts, commands, batch files, programs and queries to produce this information in your request.

Your request was received in our office on April 26, 2011 and has been processed under the FOIA.

We conducted a comprehensive search of files within ICE's Office of Enforcement and Removal Operations (ERO). ERO has determined that the request does not pertain to an operational activity and does not have the means to extract the data or any other aspect of your request (i.e. definitions of all codes used in the provided tables; linked tables, layout and format of the records requested; and, supplemental request for records). ERO deferred your request to the ICE Office of the Chief Information Officer (OCIO) for records responsive to your request.

OCIO provided two spreadsheets, totaling 16 pages, responsive to paragraphs one and two of your request. I have determined the (16) pages will be released in their entirety.

The information requested in paragraphs three and four of your request does not exist as records within ICE and would have to be created just for this request. The FOIA does not require federal agencies to create new records, answer questions posed by requesters, conduct research projects, or attempt to interpret a request that does not identify specific records, but rather is limited to requiring agencies to provide access to reasonably described, nonexempt records.¹

Provisions of the FOIA and Privacy Act allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge.²

If you need to contact our office about this matter, please refer to case number **2011FOIA7600**. This office can be reached at (202) 732-0600 or (866) 633-1182.

Sincerely,

Catrina M. Pavlik-Keenan
FOIA Officer

EID	DET_FCLTY_INSPECTIONS	DFI_DTF_ID	An alphanumeric value indicating a custodial site that is subjected to an examination of the structures, equipment, personnel, procedures, and other components to determine suitability for the custodial function.
EID	DET_FCLTY_INSPECTIONS	DFI_DFIRC_CD	An alphanumeric value indicating a category of assessment grade, resulting from examination for custodial suitability, assigned to a site with resources organized for the restraint or custody of PERSONS. SHORT FORM: An alphanumeric value indicating a category of assessment grade resulting from an inspection, assigned to a DETENTION_FACILITY.
EID	DET_FCLTY_INSPECTIONS	DFI_DFIUC_CD	An alphanumeric value indicating a category of the approval status to detain subjects for a site with resources organized for the temporary custody or restraint of persons.
EID	DET_FCLTY_INSPECTIONS	DFI_INSPECTION_DT	A standard calendar date and time when a custodial site is subjected to an examination of the structures, equipment, personnel, procedures, and other components to determine suitability for the custodial function.
EID	DET_FCLTY_INSPECTIONS	DFI_NEXT_INSPECTION_DT	A standard calendar date and time when a custodial site is scheduled for an examination of the structures, equipment, personnel, procedures, and other components to determine suitability for the custodial function.
EID	DET_FCLTY_INSPECTIONS	DFI_ACTION_DT	A standard calendar date and time when, pursuant to results of an examination for custodial suitability, grades and statuses are assigned to site with resources organized for the restraint or custody of PERSONS. SHORT FORM: A standard calendar date and time when, pursuant to an inspection, status and grades of suitability are assigned to a DETENTIO FACILITY.
EID	DET_FCLTY_INSPECTIONS	DFI_CREATE_BY	A userid indicating the creator of this record; generally this is a person, but on occasion it may be an organization, program, module, or application name.
EID	DET_FCLTY_INSPECTIONS	DFI_CREATE_DT	A standard calendar date and time when this record was initially inserted into the database.
EID	DET_FCLTY_INSPECTIONS	DFI_UPDATE_BY	A userid indicating who or what last changed this record; generally this is a person, but on occasion it may be an organization, program, module, or application name.
EID	DET_FCLTY_INSPECTIONS	DFI_UPDATE_DT	A standard calendar date and time when this record was last changed.
EID	DET_FCLTY_INSPECTIONS	DFI_SUBMITTED_TO_HQ_IND	A two-value alphanumeric symbol indicating if the results of examination of a site with resources organized for the restraint or custody of PERSONS, was sent to the top administrative level for U.S. federal immigration and customs authorities.
EID	DETENTION_FACILITIES	DTF_PUBLIC_DISPLAY_NAME	The name of the detention facility displayed to the public.
EID	DETENTION_FACILITIES	DTF_DFSCD_CD	An alphanumeric value indicating a category of usage for a site with resources organized for the temporary custody or restraint of persons.
EID	DETENTION_FACILITIES	DTF_POC_GTE_ID	A system-generated number uniquely identifying an instance of a person employed or contracted by U.S. federal immigration and customs organizations who represents a site with resources for the temporary custody or restraint of persons.
EID	DETENTION_FACILITIES	DTF_POC_ID	A system-generated number uniquely identifying an instance of a person, or organizational position or function, authorized to send or receive communications for a site organized for the temporary custody of persons.
EID	DETENTION_FACILITIES	DTF_DFCC_CD	An alphanumeric value indicating a category of the juvenile security available at a site with resources organized for the temporary custody or restraint of persons.
EID	DETENTION_FACILITIES	DTF_DFACC_CD	An alphanumeric value indicating an organization that confirms a site with resources organized for the temporary custody or restraint of persons is following standard established guidelines.
EID	DETENTION_FACILITIES	DTF_DFASC_CD	An alphanumeric value indicating a category of authorization for usage for a site with resources organized for the temporary custody or restraint of persons.
EID	DETENTION_FACILITIES	DTF_DFHTC_CD	An alphanumeric value indicating a category of the length of time that a person can be detained at a site with resources organized for the temporary custody or restraint of persons.
EID	DETENTION_FACILITIES	DTF_INSPECTED_FACILITY_IND	A two-value alphanumeric symbol indicating that a site with resources organized for the temporary custody or restraint of persons needs to be examined to determine suitability for the custody of persons.
EID	DETENTION_FACILITIES	DTF_BOOK_IN_PERMITTED_IND	A two-value alphanumeric symbol indicating whether book in is permitted to a new facility.
EID	DETENTION_FACILITIES	DTF_DIST_TO_JCE_MILES_QTY	A non-monetary numeric value indicating the closest distance in miles between the facility and a U.S. federal immigration and customs enforcement location.
EID	DETENTION_FACILITIES	DTF_CALL_FIELD_OFFICE_IND	A two-value alphanumeric symbol for ODLS to have the functionality to display Call Field Office where the facility address and phone number information would be located.
EID	DETENTION_FACILITIES	DTF_BUILT_DT	A standard calendar date and time when completion occurs for construction, modification, or installation of structure, fixtures, or equipment at a site with resources organized for the temporary custody or restraint of persons. SHORT FORM: A standard calendar date and time when construction or modification of a DETENTION_FACILITY is completed.
EID	DETENTION_FACILITIES	DTF_OVER_72_HOUR_IND	A two-value alphanumeric symbol indicating whether a site with resources organized for the temporary custody or restraint of persons is authorized to detain such persons for more than 72 hours.

Table Owner	Table Name	Column Name	Column Comment
EID	DETENTION_FACILITIES	DTF_DFFTC_CD	An alphanumeric value indicating a category of expected roles, behaviors or processes for which a site with resources organized for the temporary custody or restraint of persons is designated.
EID	DETENTION_FACILITIES	DTF_ID	A unique code to identify a detention facility.
EID	DETENTION_FACILITIES	DTF_DFTC_CD	A unique code for the type of detention facility.
EID	DETENTION_FACILITIES	DTF_NAME	The name of the detention facility (must be unique across all values).
EID	DETENTION_FACILITIES	DTF_CREATE_BY	The user who created the row
EID	DETENTION_FACILITIES	DTF_CREATE_DT	The date and time the row was created
EID	DETENTION_FACILITIES	DTF_UPDATE_BY	The user who last updated the row
EID	DETENTION_FACILITIES	DTF_UPDATE_DT	The date and time the row was last updated
EID	DETENTION_FACILITIES	DTF_OTR_DESC	Describe the facility type if O(ther) is selected.
EID	DETENTION_FACILITIES	DTF_AGY_CD	Which District Office does the facility fall under?
EID	DETENTION_FACILITIES	DTF_AGT_ID	Which District Office does the facility fall under? (FK from AGENCY_TYPES)
EID	DETENTION_FACILITIES	DTF_CLOSE_DT	The date the detention facility was retired and no longer useable.
EID	DETENTION_FACILITIES	DTF_IN_LOV	
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_CD	A unique code for the type of detention facility.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_DESC	A unique description of the detention type code.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_CREATE_BY	The user who created the row.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_CREATE_DT	The date and time the row was created.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_UPDATE_BY	The user who last updated the row.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_UPDATE_DT	The date and time the row was last updated.
EID	DETENTION_FACILITY_TYPE_CDS	DFTC_CLOSE_DT	The date the code was retired and no longer useable.
EID	E_ADDRESSES	EADR_ID	A unique system generated identifier for an email address.
EID	E_ADDRESSES	EADR_ADDRESS	The subject's email address.
EID	E_ADDRESSES	EADR_CREATE_BY	The user who created the row.
EID	E_ADDRESSES	EADR_CREATE_DT	The date the row was created.
EID	E_ADDRESSES	EADR_UPDATE_BY	The user who last updated the row.
EID	E_ADDRESSES	EADR_UPDATE_DT	The date the row was last updated.
EID	E_ADDRESSES	EADR_CIV_ID	System generated unique identifier for internal use only
EID	E_ADDRESSES	EADR_GTE_ID	The primary key derived from GOVT_EMPLOYEE_SEQ.
EID	E_ADDRESSES	EADR_DTF_ID	A unique code to identify a detention facility.
EID	GOVT_EMPLOYEES	GTE_ID	The primary key derived from GOVT_EMPLOYEE_SEQ.

RE: Appeal of December 7, 2011 ICE response to our April 21, 2011 FOIA request (2011FOIA7600) requesting all records from the ENFORCE EID detention facility database tables plus related information

We are appealing the agency's response to our April 21, 2011 FOIA request (2011FOIA7600). This response letter is dated December 7, 2011 but the envelope in which it was sent bears a postmark indicating it was not actually sent until December 13, 2011. While the letter signed by ICE FOIA Officer Catrina M. Pavlik-Keenan states it is the agency's "final response," it failed to provide any of the requested records we sought. We ask for your prompt review of this appeal and the release of all requested records.

At the time the agency finally responded to our request on December 7, 2011, we understand this request -- without any response or prior communication to ourselves beyond the agency's April 26, 2011 acknowledgement letter -- had been pending for such an inordinately long period that it had become one of the agency's very oldest pending and unanswered FOIA requests.

Indeed, on November 2, 2011 Long spoke with James V.M.L. Holzer, DHS Public Liaison and Director of Disclosure & FOIA Operations, and brought to his attention this and other pending requests for ENFORCE data extracts on which ICE had been nonresponsive. She also informed him of the failure of the agency to provide any information to us on the status of this request despite our calls to the ICE FOIA office seeking this information. Director Holzer promised to look into the matter.

For your convenience, a copy of our April 21, 2011 request and the agency's response dated December 7, 2011 are attached. Please also note that the response letter fails to inform us of our appeal rights as required by the Freedom of Information Act and the agency's regulations pursuant to that Act.

FOIA Chronology. Prior to submitting this FOIA request, we had submitted earlier FOIA requests to ICE for full documentation on the tables and information fields contained in the ENFORCE database system, including its Enforcement Integrated Database (EID). For example, FOIA requests 2010FOIA2137 and 2010FOIA2140 were submitted on January 15, 2010. Only after a long delay, and after we appealed to then DHS Public FOIA Liaison, William H. Holzerland, did the agency finally furnish us files containing ENFORCE EID documentation in April of 2011.

Using the information contained in the documentation files ICE furnished, we identified five database tables recording information on detention facilities, and selected from the list of each table's contents a total of **106 specific information fields** that according to this documentation recorded the following categories of information about each detention facility:

- the ID, name, type, and ICE supervisory office for each detention facility from the ***"DETENTION_FACILITIES" table***;
- the daily rates and other charges specified in the government's contract(s) for the use of each of these facilities to detain individuals the government was seeking to deport from this country from the ***"DET_FCLTY_CONTRACTS" table***;
- the renovations planned and made in each facility from the ***"DET_FCLTY_INSP_RENOVATIONS" table***;
- the specific numbers for adult male, female, juveniles, male and female children, and family units recorded, and for under each, the three detention security levels for these units along with the numbers of security and support staff at the facility from the ***"DET_FCLTY_INSP_CAPABILITIES" table***; and
- the dates of the inspections and results of the inspections of each detention facility from the ***"DET_FCLTY_INSPECTIONS" table***.

Detention Facility Data and Code Files. Accordingly, our April 21, 2011 FOIA letter requested

- (1) ***Data extract*** -- a complete extract of the records contained in these five tables from the ENFORCE EID database containing the information in these 106 information fields. Our letter listed the official names from the agency's own documentation for each of these 106 information fields, and indicated for each, the official name of the database table in which the information was located.
- (2) ***Code files*** -- a current copy of any code files or other records that translate any codes utilized in the data recorded in the requested information fields. Our letter explained that many of the requested fields recorded information using some sort of abbreviation or code, and hence these code definitions were needed to translate these abbreviations into their corresponding meaning.

While FOIA Officer Pavlik-Keenan's response letter forwarded 16 pages (printed on paper) which she alleged were responsive to items (1) and (2) above of our request, these pages contained neither the requested extract data, nor any code definitions. Rather, we found the records provided were essentially a copy of a small portion of the documentation that the office had previously furnished. A copy of the 16 pages she enclosed with her letter is attached for your convenience.

FOIA Officer Pavlik-Keenan's letter notes that the Office of Enforcement and Removal Operations (ERO) which her office had referred our request to had told them it "does not have the means to extract the data or[the] definitions of all codes." But FOIA Officer Pavlik-Keenan's letter does not explain why her office did not contact the appropriate office within ICE which had this capability.

According to the agency's own published privacy notices,¹ HSI appears to be the appropriate contact since it is responsible for maintaining this database and for making data extracts from EID for both internal and external parties. Further, these facts were already well known to FOIA Officer Pavlik-Keenan since HSI was the office from which it obtained the documentation on the EID previously furnished to TRAC.

Specification of the "Form and Format" for Copies. Paragraph three of our letter, pursuant to § 552(a)(3)(B) of the FOIA, discusses the form and format for the copies of the records we are requesting.

Form. As paragraph three states we are asking that the copies provided be machine readable and in the **original form** the agency maintains these records in -- that is, as five separate database tables which are interlinked -- and that the information that allows the records pertaining to the same detention facility to be linked be preserved in the copies that are provided.

Format. As to **format**, we asked to be contacted in advance of preparing these files so that we may choose the file format that best suits our needs from among those which are reproducible by the agency. To start this discussion at this juncture, we further note that our first preferences is to receive fixed column width ASCII files, with explicit notations recorded where there are null entries. We note that this is the same format database records are furnished us by the Justice Department as a result of our litigation in Long and Burnham v. U.S. Justice Department, Civil Action 2006-CV-1086 (USDC, Northern District of New York).

The response letter incorrectly asserts that this paragraph was a request for additional records, rather than simply instructions regarding the form and format we desired for the copies of the data extract and code files. We accordingly ask that in responding to this appeal that you direct that the original form the agency keeps these records in shall be maintained in the copies created, and that the information that allows the inter-linkages among records pertaining to the same detention facility also shall be maintained in the copies provided. We further ask that you as a procedural matter require that what is and isn't a reproducible format meeting TRAC's needs when making these copies be resolved through direct discussions between our IT staff and knowledgeable agency IT staff members.

We further call your attention in this same provision of the law dealing with form and format matters, to the statute's additional language which *requires an agency make reasonable efforts to maintain its records in forms and formats that are reproducible for purposes of this section*.

Processing and Audit Trail Records. Paragraph four of our April 21 letter requests under FOIA that records generated during the process of searching for the records, extracting these records, producing copies, and validating them be preserved and provided to us:

"Supplemental FOIA request for records used in making copies. We further specifically ask under the Freedom of Information Act to be provided with copies of all records

¹ See http://www.dhs.gov/xlibrary/assets/privacy/privacy_pia_ice_eidupdate-15c.pdf. For previous PIA's on EID see: http://www.dhs.gov/files/publications/gc_1279833335485.shtm#14.

indicating the method used -- including but not limited to scripts, commands, batch files, programs and queries -- to produce the copies of the information requested in this letter. We further request any outputs and logs prepared during the process of running these scripts/commands/programs and queries, or prepared to check that the copies are complete and accurate in all particulars."

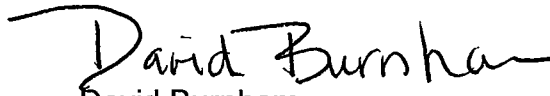

The agency cannot meet its legal obligation to ensure that it has correctly processed our request without it generating such records. Indeed any failure by the agency to create such records would be prima facie evidence that the agency did *not* perform these tasks in a reasonable or professional manner. Also, should a dispute arise over the accuracy or completeness of any copies, without these records the agency would have no satisfactory basis for demonstrating that accurate and complete copies were indeed produced and provided to us.

Furthermore, under existing FOIA case law and federal regulations, it is unlawful for agencies to destroy requested records before the final disposition of the case. We therefore ask that explicit instructions be given to ensure that the records sought in paragraph four of our request be preserved while processing this request and not destroyed, and that these records in their entirety be furnished to us.

RE: OPLA12-351, 2011FOIA7600

Dear Ms. Long:

This is in response to your letter dated October 3, 2011, appealing the adverse determination concerning your Freedom of Information Act/Privacy Act (FOIA/PA) request. The initial request asked for training manuals detailing the training of personnel in Mexico on anti-money laundering practices through the Merida Initiative. You are appealing the adequacy of the search.

We have reviewed the records in question that gave rise to this initial determination. Our analysis follows.

A search of the ICE Office of Enforcement and Removal Operations (ERO) was conducted and no records responsive to your request were found. Additional searches of the ICE Office of the Chief Information Officer (OCIO) were conducted and produced records responsive to your request. Additionally, you have appealed, asserting that the records were not in the form and format that you had requested, and that the records lacked processing and audit trails.

As to the first matter appealed, upon a complete review of the search which led to the initial determination on your FOIA request, the search was adequate in all respects and was reasonably calculated to uncover all relevant documents.¹ More specifically, the inability of an agency to locate all records because of how they are stored or indexed for retrieval purposes does not invalidate an otherwise reasonable search.² The inability of ERO to conduct the data pulls as you had requested does not indicate that the search was not calculated to uncover all relevant documents.

As to your assertion that the records were not provided in their native form, and as such, you assert your request was denied due to the form and format of the responsive records produced to you. Your appeal asserts that you should be provided the documents in the original form, as five separate database tables which are interlinked—and that the information that allows the records pertaining to the same detention facility be linked and preserved in the copies that are provided. Such a request is beyond what is considered "reasonable efforts" to produce records in a "readily reproducible" format for the agency.³ Specifically, the ICE FOIA Office has not developed a system to provide the public

reproductions of databases, or database configurations, and as such, it is not a "reasonable effort" to be required to do so specifically for your request.⁴

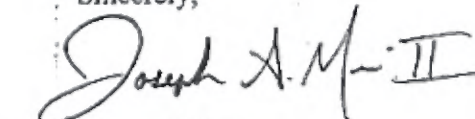

Lastly, you appealed on the grounds that the audit trails in conducting the search for your request were not produced to you. Such an appeal is without merit. First, an agency is not required to respond to requests by creating records.⁵ Additionally, any records created after the commencement of a search would be considered beyond the "cut-off" date, whereby the agency need only search for, and produce, records in its possession as of the cut-off date.⁶ The search cut-off date prevents the request from becoming "an endless cycle of judicially mandated reprocessing."⁷ Pursuant to 6 C.F.R. § 5.4(a), "(i)n determining which records are responsive to a request, a component ordinarily will include only records in its possession as of the date the component begins its search for them. If any other date is used, the component shall inform the requester of that date."

This decision is the final action of the Department of Homeland Security concerning your FOIA/PA request. Inasmuch as you consider this to be a denial of your appeal, you may obtain judicial review of this decision pursuant to the provisions of 5 U.S.C. § 552(a)(4)(B) in the United States District Court in the district in which you reside, or in which the agency records are situated, or in the District of Columbia.

The Office of Government Information Services (OGIS) also mediates disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. If you are requesting access to your own records (which is considered a Privacy Act request), you should know that OGIS does not have the authority to handle requests made under the Privacy Act of 1974. If you wish to contact OGIS, you may email them at ogis@nara.gov or call 1-877-684-6448.

Should you have any questions regarding this appeal closure, please contact ICE at ice-foia@dhs.gov. In the subject line of the email please include your appeal number, which is OPLA12-351, and the FOIA case number, which is 2011FOIA7600.
